EXCAVATOR LEARNING CENTER

Missouri One Call System has released a new, comprehensive, digital training program for excavators. This is the first, all-encompassing course and ranges in topic and complexity from the most basic safety information to specific soil types for trenching to complex safety and emergency preparedness plans. This system is a valuable asset to all excavators and their crews. The course is broken down in easy-to-digest modules that are interactive and conclude with a short quiz. Once completing the quiz, you'll be taken to the next module. It also allows for flexibility as you can simply do one or two modules and complete the rest at a later date.

Understanding all aspects of safe digging is vital to successful and incident-free excavation. The various facets and regulations for excavators in Missouri can be a lot to take on and understand for someone new to the field. This course breaks down the laws and requirements in an easy-to-absorb platform that is useful for all types of learners. The course is dictated aloud, as well as subtitled onscreen and even has clickable features throughout that will keep everyone engaged and learning. Once completed, you will be given a certificate of completion.

You can find the Excavator Learning Center at mo1call.com under the Resources tab, in the Education and Training Section. Once you have navigated there, you can set up your account and get started on your path to safer digging! ◀

¿HABLA ESPAÑOL?
SPANISH
version of the
Education Packets
coming **SOON!**

A collage of Spanish-language educational materials for excavators. It includes a "Responsabilidad del Excavador" packet with a "CONSULTAR ESTADO DEL TICKET" button, a "¿Qué es un agujero transversal?" packet, a "¿Cómo se hace un agujero?" packet, and a "¿Cómo se hace un agujero?" packet. There are also promotional graphics for "Estándares de mercado Referencia rápida" and "LLAME o Haga clic ANTES DE CAVAR" with the Missouri One Call System logo and phone number 1-800-DIG-RITE or mo1call.com.

EXCAVATOR SPOTLIGHT

These industry professionals are representing the interests of the excavator community on the Missouri One Call System Board of Directors.

MATT CLARK PRESIDENT, PCX CONSTRUCTION, LLC

Matt joined PCX Construction, LLC (then Platin Creek Excavating) in 2019 as a Project Manager. In May 2021, he was named President of PCX Construction, LLC (PCX). Matt is responsible for working directly with both PCX's clients and resources in the field to ensure the safe, successful, and profitable execution of PCX's work. Matt leads the PCX senior team, bringing invaluable perspective and experience to helping shape PCX's continued growth.

JEREMY DAVENPORT SAFETY DIRECTOR, SELLENRIEK CONSTRUCTION, INC.

Jeremy Davenport is the Safety Director for Sellenriek Construction, Inc. Jeremy is responsible for managing Sellenriek's Safety and Loss Prevention Program, Fleet Program, and Commercial Insurance policies.

Jeremy has over 20 years' experience in the construction industry. Prior to Sellenriek, Jeremy worked in heavy civil, residential, and mining industries. ◀
